

DILUTION GUIDE

MIX SMARTER. CLEAN BETTER. SAVE MORE.

This guide will help you understand dilution ratios and how to mix Enviro-One concentrate for any cleaning task.

WHAT IS A DILUTION RATIO?

A dilution ratio tells you how much water to mix with Enviro-One concentrate.

10:1 RATIO

10 Parts Water + 1 Part Enviro-One

Always add Enviro-One concentrate to water.
Never add water to concentrate.

PROPER DILUTION HELPS:

CLEAN MORE EFFECTIVELY

Get better results for every cleaning task.

SAVE MONEY

Use less product and get more cleaning power.

REDUCE WASTE

A little concentrate makes a lot of cleaning solution.

PROTECT SURFACES

The right dilution prevents residue, streaks and buildup.

DID YOU KNOW?

A single bottle of Enviro-One concentrate can make dozens of ready-to-use cleaning bottles depending on the dilution ratio used.
